App. 46% increase over the corresponding quarter last year

^{*} Including net interest income from discounting of sales slips for merchants.

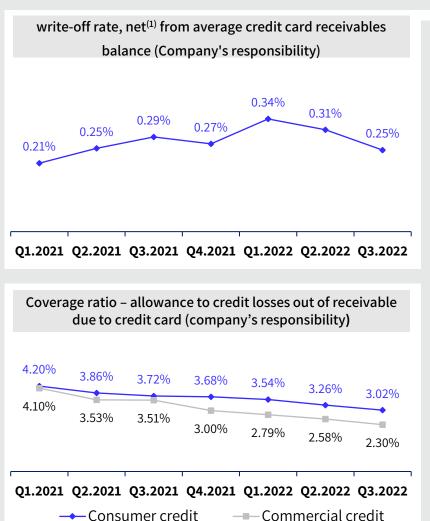

Provision for Credit Losses

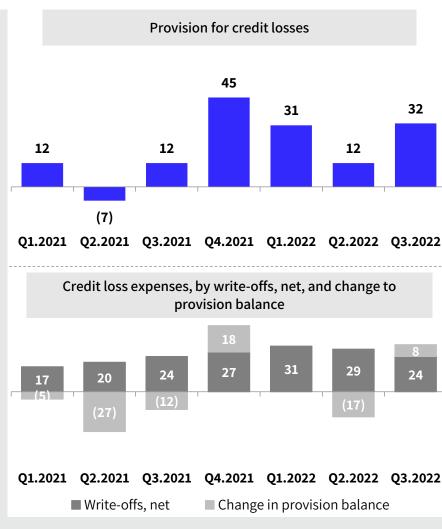

3rd Quarter, 2022

(ILS millions)

- A downward trend in the write-off rate, net,⁽¹⁾ from average credit card receivables balance in 2022.
- The increase in provision for credit losses in the quarter, compared to the previous quarter and the corresponding quarter last year, is mainly due to a double-digit growth in the Company's credit portfolio, together with an increase in credit card receivable balances.

Maintaining high coverage ratios

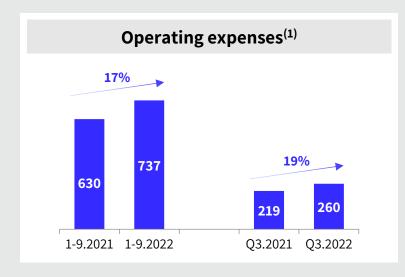

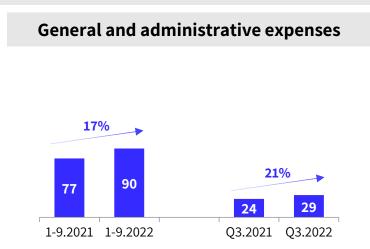

Expenses (excluding credit losses)

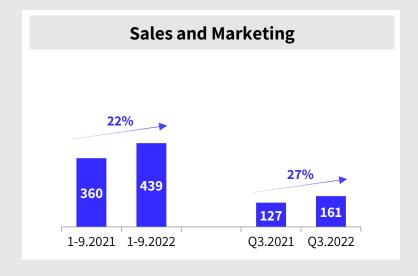

3rd Quarter, 2022

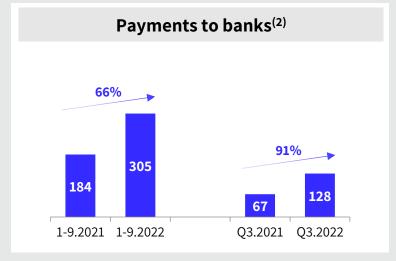

(ILS millions)

- Operating expenses are mostly affected by the increase in transaction volumes in Israel and abroad, which brought an increase in payments to international organizations, as well as by growth of credit portfolio and increase in depreciation expenses as a result of group investments.
- ◆ Sales & Marketing expenses most of the increase in the 3-month and 9-month periods compared to the corresponding periods last year derive from an increase in club management fee expenses, affected by renewal of agreements, as well as an increase in transaction volumes, increase in expenses of gift promotions to cardholders and in marketing campaigns.
- ◆ Payments to banks most of the increase in the 3-month and 9-month periods compared to the corresponding periods last year derive from an increase in payments, net, to Bank Hapoalim, according to understandings in principle, beginning on April 1, 2022, of ILS 48 million and 95 million in 3-month and 9-month periods respectively ended on September 30, 2022, and from increase in transaction volumes, partial set off by a decrease in the local inter-charge fee rate.

- (1) The Data is presented net of nonrecurring operating expenses of ILS 42 million in 1-9.2022. For information, see also Slide 17 in the appendices chapter.
- (2) For the three and nine month periods that ended on September 30, 2022, the company recognized an increase in the amount of payments to Bank Hapoalim (the effect of the updated agreement) of approximately ILS 48 ILS million and ILS 95 ILS million, respectively, net of income from issuing operations with Bank Hapoalim.

Accelerating an Efficiency Plan

Annual savings of ILS 55-65 million

The plan will be implemented by the end of 2023 with savings fully realized in 2024⁽¹⁾

Digitization and automation

Streamlining operations and cost saving |%

Workforce

Simplifying organizational structures

The company intends to complete the formulation of the plan and its approval by the authorized entities by the end of 2022

⁽¹⁾ The results of the second quarter of 2022 were affected by an increase in the provision for VAT assessments of about ILS 25 million in accordance with the principles of negotiation of the settlement, which at the time of signing the report was not successful.

⁽²⁾ The results of the e first quarter of 2022 were significantly affected by nonrecurring events and their accounting treatment, which includes: an expense of about ILS 10 million resulting from shortening the contractual lease period at the old "Isracard House" at 40 Hamasger Street, Tel Aviv. As the date of signing the report, the company has no financial liability for the lease. and from an expenditure of about ILS 7 million resulting from a Company decision, as part of implementing the multi-year strategic plan, to discontinue a public transport payment app.
